# Voting Activity Summary

# Introduction

At Barclays Private Bank, we aim to create long term value for our clients and stakeholders while investing responsibly. Identifying and managing environmental, social and governance (ESG) risks and opportunities, which can have a material impact on financial returns, is key to achieving our goal. This means we consider ESG factors throughout our investment process, alongside financial information.

Barclays Private Bank has partnered with a leading stewardship provider, EOS at Federated Hermes (EOS) (collectively referred to as "we"/ "our" in this report), to support us with engagement and voting across our private banking assets in Monaco. By working with other likeminded investors to amplify our voice, we believe company engagement becomes more effective, enabling us to deliver competitive returns for our clients over the long term.

Voting at shareholder meetings and engaging with portfolio companies on ESG issues can be an effective mechanism to reduce portfolio risks and enable us to deliver competitive returns. They also give us the opportunity, on behalf of our clients, to have a positive influence on corporate behaviour and promote more sustainable business practices.

We actively vote on matters put to shareholders, and engage with portfolio companies on material ESG issues, to encourage them to better manage and mitigate ESG risks, and to improve their ESG disclosures.

We will support management where voting proposals are aligned with the interests of our clients. Conversely, if we believe ESG practices are not in our clients' long term interests, we will signal our concern by voting against them. Although voting normally occurs only once a year, our analysis and dialogue with companies typically takes place on an ongoing basis.

We aim to vote in all markets, although at times our ability to do so may be hindered by internal restrictions or practical considerations.

This factsheet gives an overview of the voting activities undertaken on behalf of our clients over the last quarter.

## Definitions for voting decisions:

Vote For: A voting decision taken to support a management recommendation on a resolution.

Vote Against: A voting decision taken which does not support a management recommendation on a resolution.

**Withhold:** A withhold vote is used to express dissatisfaction with a candidate where they are the only candidate nominated for the role. This is specific to directorship elections in the USA.

**Abstain:** A voting decision which declines to vote either for or against a resolution.

While we aim to vote on all resolutions on a best efforts basis, we may be unable to do so where there are operational barriers, internal or market restrictions. For example, we may be unable to vote due to restrictions relating to share blocking (markets where proxy voters have their securities blocked from trading during the period of the annual meeting), split voting (the ability to provide different instructions in relation to assets held in the same account) and partial voting (when only a portion of the total shares in an account is voted on).
